

The memorial crape myrtle tree and name stone layout on the Mount Carmel property outside of Waco, Texas as documented by Matthew Wittmer in December of 2000 when the stones were at the base of each of the trees planted by survivors and Rick Donaldson. In 2006 all the stones were removed (David's was destroyed) and stacked at the front of the property by Charles Pace. As of April 2009 all of these trees were uprooted from their original positions below, effectively erasing the survivors memorial effort. They have been replanted along the property's driveway by Pace.
